WHAT'S IN A NAME? (Benson's Plaster is Pain's Master.)

In the days of 'wild cat' money in the West, the Ames shovels were used as currency. They were as stable as gold; their price dil not vary a cent in twenty years. The very name of Oliver Ames & Son, was a synonym for honesty. It was current all over the world.

On the same principle Benson's Porous Plaster is the universal standard external remedy. To say it is a "good" plaster does not describe it; it is the best possible plaster. For every disease in which an external remedy is available, Benson's Plaster is used almost as a matter of course.

Benson's Plaster quickly relieves and cures where other modes of treatment are cures where other modes of treatment are either erasperatingly slow or have no good effect whatever. Coughs, colds, lumbago, hidney trouble, rheumatism, lame back, etc., are at once benefited and soon cured. Capsicum, Strengthening and Belladonna plasters have none of the curative virtues of Benson's. More than 5,000 physicians and druggists have commended Benson's Plaster as a remedy in which the public may have implicit confidence; while, in a comparative test with other plasters, Benson's has received fifty-fice highest awards.
